- **Backend:** Node.js, Express.js, JWT Authentication, Better Auth
- **Database:** MongoDB
- **Tools & Version Control:** Git, GitHub, VS Code.

Projects:

1. ToolsBazaar

([LiveSite](#) | [GitHub](#))

A full-stack AI-powered tools marketplace where users can discover, manage, and access various online tools.

- Built a responsive platform using **Next.js, React, Node.js, Express, and MongoDB**.
- Implemented **Better Auth** authentication with role-based access and protected dashboards.
- Integrated **Stripe** subscription payments to unlock premium features.
- Added an **AI-powered tool generation** feature for creating and publishing new tools.
- Developed admin CRUD functionality for managing tools and categories

2. House Rent Management

([LiveSite](#) | [GitHub](#))

A full-stack house rent management platform that simplifies property listing, tenant management, and online rent payments.

- Built with **Next.js, React, Node.js, Express.js, and MongoDB** for a responsive and scalable user experience.
- Implemented **Better Auth** with role-based dashboards for Admin, Landlord, and Tenant.
- Integrated **Stripe** for secure online rent and subscription payments.
- Developed property listing, booking, tenant management, and maintenance request features with full CRUD functionality.
- Added real-time dashboard analytics and rent tracking for efficient property management.

3. Legal Solutions

([LiveSite](#) | [GitHub](#))

A full-stack legal service platform that connects clients with lawyers for consultations, appointments, and case management.

- Built using **Next.js, React, Node.js, Express.js, and MongoDB** with a responsive UI.
- Implemented **Better Auth** with role-based access for Clients, Lawyers, and Admin.
- Integrated **Stripe** for secure lawyer appointment and consultation payments.
- Developed lawyer profile management, appointment booking, and case tracking with full CRUD operations.
- Created admin dashboard features for managing users, lawyers, bookings, and platform content.
